

CHASSIS

Innovative, patent-registered "Carbon-Fiber-Flex" suspension for smooth rides on all pavements.

FRAME

Foldable lightweight-frame made of carbon fiber, fiber-reinforced thermoplastics and aviation-grade aluminum.

WHEELS

Exchangeable tires and integrated disc brakes for effective all-wheel braking power.

OUR MISSION: RETHINKING MOBILITY

"As innovative lightweight specialist Mubea is shaping sustainability within the automotive industry. With the foundation of Urban_M we think mobility beyond the automobile. We develop emission-free micromobility-vehicles which reach a new level of robustness, functionality and driver safety.

For sustainable, comfortable and efficient urban mobility and logistics."

Dr.-Ing. Dr.-Ing. E. h. Thomas Muhr, CEO
