STRONGER TOGETHER – Jansen Steel Tubes & Mubea Precision Steel Tubes

"Joint Innovations - Stronger Together" - This was the motto of Jansen Steel Tubes and Mubea Precision Steel Tubes first joint appearance at the TUBE trade fair in Düsseldorf from June 20 to 25.

This year, 1,822 exhibitors from over 50 countries were represented at the leading international trade fair for the tube industry – the wire and Tube. Jansen Steel Tubes and Mubea Precision Steel Tubes used this global setting to present their innovative precision steel tubes for the automotive, furniture and services installations industries and to inform about their new strategic direction. A special highlight at the booth was the presentation of our precision steel tubes, which are used in product applications for the automotive industry of the future.

We would like to thank you for the many interesting discussions and encounters that we had at the trade fair and look forward to welcoming you again at the next Tube trade fair.
