

# Propeller shaft

## Product information | Technical data sheet

Jansen Steel Tubes and Mubea Precision Steel Tubes produce welded-drawn precision steel tubes for propeller shafts.

During processing, tubes for the propeller shafts are partly drawn in at the ends, leading to high demands on the formability and the quality of the weld seam. Stringent tolerances in terms of concentricity, straightness and wall thickness are

necessary to prevent NVH (Noise, Vibration, and Harshness) issues. This guarantees smooth propeller shaft operation within the vehicle. The use of modern air hardening steel materials creates new opportunities to reduce weight.

## Tube requirements

Excellent formability  
(drawing in, hammering)

High torsional strength and durability

Very good welding properties

High geometrical accuracy  
(eccentricity, roundness)

Excellent surface condition

## Material properties

High torsional strength and fatigue strength

Excellent reforming properties

Homogeneous strength properties  
and ductility

Excellently suitable for welding

## Structure

Homogeneous, fine-grain structure  
in weld seam and basic material

Minimised surface decarburisation of  
inner and outer surfaces (<50 µm)

Very good weld seam quality

Very good reforming properties

## Geometry

Minimised fluctuations in wall thickness and  
inner/outer diameter

Minimised deviations in straightness

Minimised deviations in concentricity  
and axial run-out

Minimised eccentricity

Specific tube end processing:  
sawn/brushed; chamfered

## Surface

Excellent surface condition

Minimised surface flaws  
(adhesions, scratches, dents, etc.)

Minimised corrosion protection,  
optionally specific corrosion protection

## Materials & dimensions

Application	Tube standard	Steel grades	Delivery condition	Dimensions range mm
Propeller shaft	✓ EN 10305-2	✓ C22	✓ +C	✓ OD 50 - 85 ✓ WT 1.5 - 5
		✓ E355		
		✓ 22MnB5		
		✓ 26MnB5		
		* AH1000		
		* AH1200		

## Extract from achievable weight-savings

✓ ■ Series production  
\* ■ In validation

AH: air hardening

OD: outside diameter

WT: wall thickness
