

SUCCEED IN TRANSFORMATION

Mubea

Full Carbon Roof

Innovation:

- › Structural and visible carbon roof made in RTM-technology and painted in-house

Customer Benefit:

- › Significant weight savings in the upper part of the vehicle
- › Improved driving performance and handling
- › Increased active safety
- › Exclusive appearance
- › High-value feature
- › Automated preforming and RTM injection
- › CAM: Robotic assembly (bonding of outer and inner shells)
- › Painted in Mubea-owned paint unit

Status:

- › Series production since 2019
