Countries

1
Continents

PRODUCT

Wide range of product portfolio:

- › Sheet metal parts, Short bed machined parts, sub-assemblies, soft & hard metals
- › Parts and sub-assemblies for fuselage structure, wing structure, and interiors (cabin brackets)

PRODUCTION

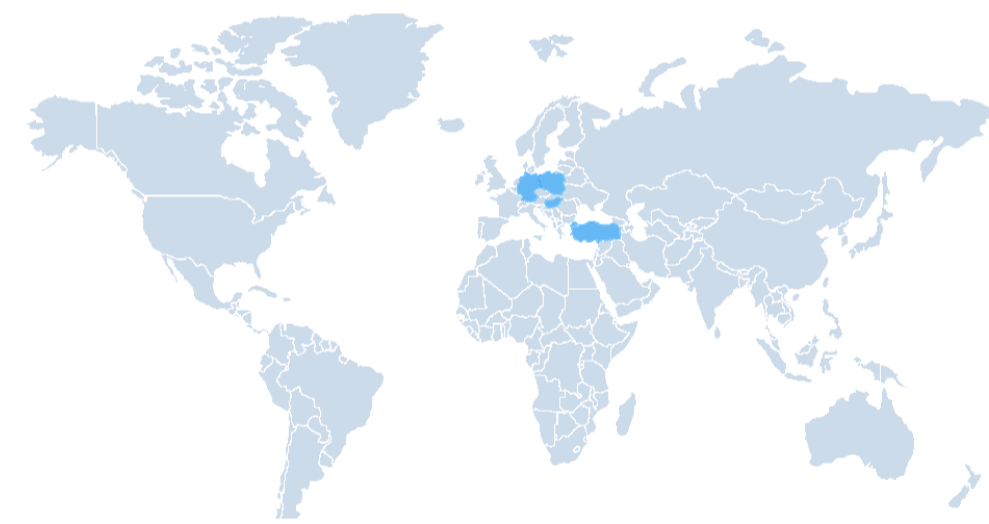

De-risking set-up (two twin plants)

Vertical Integration allows Cost optimization, lowest lead times, simplification of production flows and lower costs

FOOTPRINT

De-risking set-up (two twin plants in Germany & Turkey)

Dedicated to European customers

SERVICE

The local to local approach allows a better service to our customers

EASA Form 1 delivery allows cost savings for our customers

The vertical Integration allows quick deliveries, either for New Products or ToW

COST

The strategic approach allows significant cost savings to customers:

- › Highest levels of vertical integration
- › BCC footprint in Turkey and Poland
