SUCCEED IN TRANSFORMATION

Mubea

MTH – Mubea Tailor Hardened

Innovation:

- Cold form material with locally tailored thickness, strength & ductility

Customer Benefit:

- Maximized flexibility to adjust thickness AND material properties
- Cost reduction by usage of lower grade raw material
- Shortened process chain saves energy & reduces the CO2 footprint

Status:

- Material cards for validation finalized & in use
- Initial series projects in launching phase
- Implemented into “TRB Designer” CAx tool
