SUCCEED IN TRANSFORMATION

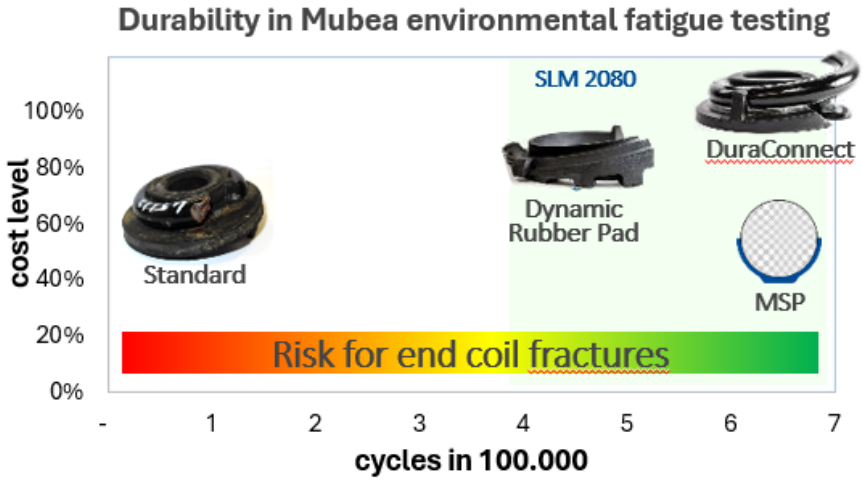

Mubea

MSP – Mubea Smart Protection

Ehanced end coil protection

Innovation:

- Direct application of a shaped polyurethane layer on coated end coil
- Optimized stress distribution for TPU durability
- Elimination of the spring pad

Customer Benefit:

- Maximum robustness in the interface (same as DuraConnect)
- No end coil fractures allow max. lightweight design with SLM2080
- Best cost-efficiency → same cost as standard pads and ca. 50% cost of DuraConnect

Status:

- Internally validated
- Customer validation ongoing
- Ready for application development
