SUCCEED IN TRANSFORMATION

Mubea

Intermediate Shafts / Side shafts / Connect Shaft

Innovation:

- Hollow design for lightweight
- Cold & Semi-hot forging enables load-optimized wall thicknesses for lightweight shaft.
- High level in-house production, starting with our own tube manufacturing.

Customer Benefit:

- Lightweight intermediate and side shafts supplied ready for installation or as complete assemblies.
- Broad manufacturing technologies for flexible, application-specific solutions.
- Reliable development support from concept to series production.
- Cost-efficient production in LCC across all major global markets.

Status:

- Successfully launched in series-production e-mobility projects.
- Established production capacity on fully automated transfer lines.
